MEMBERS OF THE ILLINOIS STATE BOARD OF NURSE EXAMINERS.

952 15-
MISS ADELAIDE MARY WALSH, R. N., *President*, 153 East Chicago Avenue, Chicago, Ill. Appointed August 14, 1913. Graduate Mercy Hospital Training School, Chicago; Supervisor Visiting Nurses Association, Chicago; Director Social Service Department, Children's Memorial Hospital, Chicago; Instructress of Nurses, Chicago School of Civics and Philanthropy.

MISS ANNA LOUISE TITTMAN, R. N., *Secretary and Treasurer*, State Capitol, Springfield, Ill. Appointed August 14, 1913. Graduate Springfield (Ill.) Hospital Training School for Nurses; Post Graduate Johns Hopkins Hospital School for Nurses, Baltimore; Boston Floating Hospital, Boston, and Bellevue Hospital School for Nurses, New York; Private Duty Nursing; Instructress of Nurses, Boston Floating Post Graduate School for Nurses and Springfield Hospital; Organizer and Director of School Nursing, Springfield (Ill.) Public Schools.

MISS JULIA S. CHUBBUCK, R. N., Rockford, Ill. Appointed August 14, 1913. Graduate Presbyterian Hospital School for Nurses, Chicago; Supervisor Central Dispensary, Rush Medical College, Chicago; Assistant Superintendent of Nurses, Presbyterian Hospital, Chicago; Directress of Nurses, Rockford Hospital School for Nurses, Rockford, Ill.

MISS VELORA E. RANDEL, R. N., 460 East Thirty-second Street, Chicago, Ill. Appointed February 28, 1914. Graduate Rhodes Avenue Hospital School for Nurses, Chicago; Private Duty Nursing; Chief Operating Room Nurse and later Superintendent of Nurses, Rhodes Avenue School for Nurses, Chicago.

MISS KATHRYN A. CONWAY, R. N., 2253 Burling Street, Chicago, Ill. Appointed June 18, 1914. Graduate St. Mary's of Nazareth Hospital School for Nurses, Chicago; Private Duty Nursing, Chicago.

ANNUAL REPORT.

To His Excellency, Hon. EDWARD F. DUNNE,

Governor of the State of Illinois.

SIR: The Illinois State Board of Nurse Examiners presents its first annual report of the work accomplished during the year ending September 30, 1914, with a deep sense of the responsibilities attached to the importance of offering any definite outline of work accomplished.

The generous response of the nurses of Illinois to the opportunities offered by the present law, and particularly those pertaining to a six months' waiver, enabling graduates of schools giving a two years' course of training, to present themselves for examination, has been a particular source of gratification to the members of the board. In this way the profession has indicated its appreciation of the need of standards and a desire that they be maintained. The following pages will show in a detailed manner some of the constructive work of the board and the manner of bringing it to a successful issue. The fundamental principal of the act creating this board is that poorly trained and inadequately equipped women shall not undertake the responsibilities for which they are not properly prepared. Mindful of our duty in this regard, we have striven at all times to carry into force and effect the full intent of the law.

Any work of this kind can never be done without a certain dependence upon community environment. Cooperation, and all that it means, bears a strong relation to any finished work. In this regard, the board wishes to express its belief in the wisdom of the removal of its headquarters from Chicago to the State Capitol at Springfield. The courtesy and kindness of the officers of the State and the members of other State boards have assisted materially in making possible many of the matters related in the following pages.

The growth of the work has demonstrated to the board the necessity of making an increase in the appropriation above that granted by the Forty-eighth General Assembly. In this way, by having more office assistance and by making it possible to develop a better organization, the bulk of work can more easily be taken care of without interfering with the routine procedure of the regular activities. During the past year the board has paid into the State treasury \$2,616 in excess of the appropriation of \$5,130 granted by the Forty-eighth General Assembly.

With the desire that the ultimate end of serving the State and the profession may be the result of a conscientious effort of your board, we beg Your Excellency to accept this report as a tangible proof of some of the deeds made possible during the past year and of some of the needs

desired for the year that is to come. May each year increase the efficiency of this work and may it find, at all times, a place of understanding and a power of development in the scheme of work in the State of Illinois.

Respectfully submitted,

ADELAIDE M. WALSH, R. N.,
President.
 ANNA L. TITTMAN, R. N.,
Secretary and Treasurer.
 JULIA S. CHUBBUCK, R. N.
 VELORA E. RANDEL, R. N.
 KATHRYN A. CONWAY, R. N.

FIRST ANNUAL REPORT OF ILLINOIS STATE BOARD OF NURSE EXAMINERS.

ORGANIZATION AND MEETINGS.

The Illinois State Board of Nurse Examiners was organized on September 13, 1913, with three members; Miss Walsh, Chicago; Miss Chubbuck, Rockford, and Miss Tittman, Springfield. Miss Walsh was elected president and Miss Tittman secretary and treasurer.

Fourteen meetings were held during the year—five for examination purposes and nine for the transaction of official business. Of these meetings, ten were held in Chicago, three in Springfield and one in Rockford.

EXAMINATIONS.

Rules.—Section 3 of the law provides that “the board shall, from time to time, adopt rules governing the examination of applicants for registration, not inconsistent with the provisions of the law.” At a meeting held September 20, 1913, the following rules were adopted:

RULES GOVERNING THE EXAMINATIONS OF THE ILLINOIS STATE BOARD OF NURSE EXAMINERS.

APPLICATIONS.

*1. Application for registration under the provisions of “An Act to provide for the registration of nurses” shall be presented to the Illinois State Board of Nurse Examiners “in writing, and shall in every instance be accompanied by the examination fee of ten (\$10.00) dollars, together with satisfactory proof that the applicant is residing in the State of Illinois, is of good moral character, and is at least twenty-two (22) years of age at time of making application.”

2. Nurses otherwise qualified shall be entitled to make application for registration as follows:

First—An applicant who “is a graduate of and has a diploma from an accredited school of nurses connected with a general hospital requiring a systematic course of at least three (3) years’ training.”

Second—“Application may be made by one who under the rules of an accredited school of nurses will be entitled to receive a diploma within three (3) months following the date of filing said application, but no certificate shall be issued to such applicant until he or she has received such diploma and has satisfactorily passed the prescribed examinations.”

Third—Applicants “who at time of application shall have graduated and received diploma from a school for nurses connected with any hospital of good standing, requiring a systematic course of at least two (2) years’ training, and shall have obtained in any hospital of good standing, one (1) year’s additional training in subjects not adequately taught in the school for nurses from which they graduated.”

Fourth—Applicants “who at time of application shall have graduated and received a diploma from a school for nurses connected with any hospital

* Quotation marks enclose portion of an act entitled, “An Act to provide for the registration of nurses, and to repeal a certain act therein named.” Approved June 30, 1913; in force July 1, 1913.

of good standing, requiring a systematic course of at least two (2) years' training," and shall have filed application prior to December 31st, 1913.

3. Application blanks may be procured from the secretary of the board upon application. Printed instructions will be found on each blank and all questions must be answered, all instructions conformed to, and all statements filled out in the applicant's own handwriting, under oath, and be properly attested. Applications must be received by the secretary of the board at least fifteen (15) days prior to the examination.

4. In no case will a person be admitted to examination who has not properly attended to the preliminary steps.

5. If, for any justifiable reason, the applicant is unable to take the examination at the appointed time, upon due notice of the fact to the secretary, he may be transferred to the next session, without re-application.

6. In all cases the application papers will be retained by the secretary of the board. The fee will not be returned if the applicant, having entered upon the examination, is found not eligible for registration, but said applicant may be subsequently examined without fee.

7. Each applicant will be sent by the secretary, a card of admission to the examination.

EXAMINATION.

1. The Illinois State Board of Nurse Examiners shall meet not less frequently than twice a year for the purpose of holding examination for nurses who wish to be known as Registered Nurses.

"Notices stating the time and place for the holding of such meetings shall be published in at least one (1) newspaper of general circulation in each of the cities of Chicago and Springfield, and also in at least one (1) journal devoted to the interests of professional nursing, at least thirty (30) days and not more than sixty (60) days before the date set for holding the meeting, such written notice of said examinations shall also be sent by mail to every person whose application for examination has been approved and is on file," and also to every school for nurses of good standing, in Illinois, at least thirty (30) days prior to the meeting.

2. At the opening of the examination each applicant shall present with the card of admission, his or her diploma from the school for nurses from which he or she has graduated. Each applicant will be furnished with an envelope containing a numbered card upon which the applicant shall write his or her name, sealing the envelope and using the number on the upper right-hand corner of all examination papers. The sealed envelope containing the signed card will, at the conclusion of the written examination be handed to the secretary of the board, and shall not be opened until all the papers are graded.

3. Applicants are expected to be promptly on time at the place of the examination.

4. Examinations may be written or may, in part, consist of practical demonstrations, according to the discretion of the examining members of the board. All examinations shall be conducted by at least three (3) members of the board, not graduates of the same school.

5. All written examinations shall be on paper furnished by the board. Answers are to be written in the order of the questions and the questions not copied. Papers containing the questions must be returned, intact, with the answers.

6. All applicants detected in trying to give or obtain aid shall be dismissed from the examination, and their papers for the entire work rejected.

7. Applicants will be required to pass a grade of 70 per cent in both theoretical and practical parts of the examination. If applicants fall below the 70 per cent mark in any subject they will be given credit for all subjects passed in and will be required to appear again for examination only in those subjects in which they have failed.

8. No examination papers will be returned to the applicant.

9. The examining members of the board shall begin their inspection of the answers submitted by the candidates immediately after the close of the examination, and shall complete the same with promptness and dispatch.

CERTIFICATES.

1. Applicants who have successfully passed the requirements will be given a certificate of registration signed by each member of the board, attested by the president and secretary and stamped with the official seal.

2. When certificates are sent by mail, they must be registered. If not mailed, a receipt for the same shall be given. In both cases the receipt must be filed with the application. Any person who has received such a certificate shall be styled and known as a registered nurse, and shall be entitled to append the letters R. N. to the name of such person.

3. "Each person to whom such certificate shall be issued, or any renewal thereof, shall, within ninety (90) days thereafter cause the same to be presented at the office of the county clerk of the county in which such person resided at the time of filing the application and cause said certificate or any renewal thereof to be registered. The county clerk shall charge twenty-five (25) cents for registering such certificate. Failure, or the refusal on the part of any person obtaining a certificate for registration as a nurse, or any renewal thereof, to register the same with the county clerk of the county in which said person resided at the time of application within ninety (90) days from issue of the same shall make a revocation of said certificate: *Provided, however*, that a certificate revoked for failure or refusal of its holder to register, the same may be restored upon application to the board and the payment of a fee of two (\$2.00) dollars for the issuance of a new certificate. Each person so registered as a nurse shall be prepared, when requested in connection with work as a nurse, to exhibit such certificate of registration or a certified copy thereof."

4. "The board, upon written application and upon the payment of ten (\$10.00) dollars as a registration fee, may issue a certificate without examination of the applicant who shall have been registered as a registered nurse under the laws of another state having requirements which in the opinion of a majority of the members of said board, subject to the approval of the Attorney General, are of equal or higher standard than those of the State of Illinois for the registration of nurses."

These rules are subject to revision or amendment by the board.

Subjects.—At the same meeting the board adopted the following subjects of examination: Ethics; Materia Medica; Dietetics; Urinalysis; Anatomy and Physiology; Bacteriology; Hygiene; Medical Nursing; Surgical Nursing; Gynaecological Nursing; Obstetrical Nursing; Children and Contagious Nursing. At a meeting held June 12, 1914, the subject of Bacteriology was combined with that of Hygiene, and a new subject—Nursing in Nervous and Mental Diseases—was adopted. This arrangement was used for the first time in the July 14-15 examination. The Illinois board is the first in 39 states having registration, to adopt this subject. Prevention is the keynote and the great need for more thorough instruction of nurses in this subject is manifested by the presence of 15,000 patients, in the Illinois State hospitals for the insane, for whom the State bears great expense and responsibility.

The board has confined its examination to written work only, because of the very large classes. It has, however, gone on record as emphasizing the practical phase of nursing education on an equal basis with the theoretical, and as conducting examinations in strictly nursing subjects and nursing care, avoiding diagnosis and treatment of disease. It thus accentuates the line of demarcation between the profession of nursing and that of medicine.

Attendance.—Of the five examinations held during the year, three were in Chicago and two in Springfield. The attendance was as follows:

November 21-22, 1913, Chicago.....	389
December 10-11, 1913, Springfield.....	56
March 25-26, 1914, Chicago.....	215
July 1-2, 1914, Chicago.....	69
July 14-15, 1914, Springfield.....	38
Total	827

Because of the large attendance the board has concluded to hold examinations quarterly—in Chicago in October, January and April of each year and in Springfield each July.

Six months' eligibility waiver.—Applications of 210 graduate nurses were accepted under the terms of the six months' waiver described in section 8 of the new act, granting eligibility by examination to nurses having "graduated and received a diploma from a school for nurses connected with any hospital of good standing, requiring a systematic course of at least *two (2) years'* training." This waiver elapsed December 31, 1913. During October, 1913, the terms of this waiver and the examinations appertaining were advertised in 40 newspapers, throughout the State, in other periodicals and nursing journals. Notices were also sent to every hospital and school for nurses in the State and information furnished on approximately 500 individual requests. In the preparation of questions, the board exercised particular leniency.

Student nurses eligibility.—Of the 827 candidates approximately 25 per cent were student nurses eligible under the provisions of the law in section 7, which grants eligibility to student nurses, within three months of completion of course in a 3-year accredited school for nurses.

Failures.—Of the 827 candidates, 706 were successful in all subjects, and 121 failed in one or more subjects. There were 100 who re-wrote the subject or subjects of failure, provision being made in the rules that candidates may re-write as often as necessary, without the payment of an additional fee.

Grades.—The passing grade of 70 per cent is required in each subject. Grades of all candidates from any accredited school within the State are sent, with a copy of the questions used, to the superintendent or directress of nurses of that school, thus affording an opportunity of determining possible weak points in the curriculum and acquainting pupil nurses with the character of the questions used.

Publicity.—Publicity of all examinations has been made a strong point, owing to the peculiar isolation to which most nurses are subjected. Notices printed in large type are posted in conspicuous places in schools for nurses, hospitals and headquarters of nurses' organizations. Notices are sent to all schools for nurses in Illinois, regardless of standing, and announcement is published in newspapers, in National and State nursing journals. The large responses are particularly gratifying, since the law is not mandatory.

CERTIFICATES.

The first certificates issued under the new statute were dated February 4, 1914. The total number issued during the year was 713. This number, added to those registering under the previous statute,

makes a total of 4,164 names on the official register at the close of the year—September 30, 1914.

The board has adopted the method of indicating the basis of registration in letters on the gold seal of each certificate. Thus there were 706 certificates issued "By Examination," 6 "By Restoration" and 1 "By Reciprocity."

Revocation and restoration.—Section 4 of the law provides for the revocation of certificates for failure of the owner "to register the same with the county clerk of the county in which said person resided at the time of making application, within ninety (90) days from issue." The same section provides for the restoration "upon application and payment of \$2." There were six certificates revoked and restored under this clause.

Section 11 provides for revocation "for gross incompetency or recklessness in the discharge of duty as a registered nurse." Provision is also made for renewals. We have received no complaints against any registered nurse, nor against any person using the title "R. N." under false pretenses.

RECIPROCITY.

Under the terms of section 7, unlimited reciprocity was established with the State Board of Nurse Examiners of Indiana, March 13, 1914. Six Illinois registered nurses and one Indiana registered nurse have taken advantage of this. Unlimited reciprocity was established with Wisconsin September 1, 1914, at which time a very liberal waiver in the Wisconsin law expired, and the standards of requirements became equivalent in these two states. Reciprocity has been extended to the State Board of Maryland, but was rejected owing to the fact that Maryland's law does not include a reciprocity clause. The board is awaiting an official response, which promises to be favorable, from the states of California and Minnesota, to which unlimited reciprocity has been extended. The Attorney General of Illinois, Hon. Patrick J. Lucey, has approved the action of this board in respect to extending reciprocity to the above named states.

REMOVAL OF OFFICE TO SPRINGFIELD.

On December 18, 1913, the State Board of Nurse Examiners removed its headquarters from Room 1640 Unity Building, Chicago, to the State Capitol, Springfield. The advantages of this step are realized in many ways, as, avoiding the payment of rent, gaining more public recognition, being in more ready access to smaller down-State institutions which need and desire the support and advice of this department, and the decided advantage of being in closer touch with the other departments of the State Government.

SCHOOLS FOR NURSES.

Section 3 of the law provides that: "The board shall from time to time * * * adopt rules providing for and establishing uniform and reasonable standards of maintainance, instruction and training, to be

observed by all schools for nurses which are on or pending to be placed on the list of accredited schools for nurses, hereinafter provided for, and also for inspection by said board for such schools for nurses. By reference to the compliance or non-compliance of schools for nurses with such rules, and the general standard of efficiency or inefficiency of management and instruction maintained by same, the said board shall, by conducting inspections in accordance with its rules, determine the eligibility of and designate the schools for nurses to be placed on or to be withdrawn from a list which shall be known as the list of accredited schools for nurses."

On February 4, 1914, the board adopted the following rules governing the accrediting of schools:

RULES GOVERNING ACCREDITING OF SCHOOLS FOR NURSES IN ILLINOIS.

1. The training school must be connected with a general or special hospital, having not less than 25 beds, and the number of student nurses shall not exceed one-half to one-fourth the number of patients, governed by the facilities for private or ward patients.

2. The principal of the training school shall be a registered nurse or eligible to registration.

3. The training school shall require of all applicants proof of one year of high school or its equivalent; that they shall not be less than 19 years of age; of good moral character; of good physical and mental health and free from any habit rendering them unsafe to be entrusted with or unfit for the care of the sick. Preference should be given to applicants who have spent more than one year in a high school or college and to those who have taken a partial or full course in domestic science in a recognized technical school.

4. The training school shall require a systematic course of at least three years' training.

5. The instruction shall be both theoretical and practical.

The theoretical work shall be based upon the suggested course of instruction for the training schools for nurses, as the minimum requirement.

(Schools are accredited for a period of one year, subject to annual inspection and renewal.)

Inspection and accrediting of schools for nurses.—There are 105 schools for nurses in the State of Illinois, having an approximate total of 600 graduates a year. When the present board came into possession of the records of the former board, 64 schools were on the accredited list, with two others pending renewal. On February 4, 1914, the board, very heavily engrossed in the work of examinations, voted to extend the period of accrediting of all schools then on the accredited list until such a time as the work of inspection could be efficiently accomplished. Twenty new applications have been received during the year, only three of which are located in Chicago, while 17 are located throughout the State from Freeport to Cairo. One of the latter has since withdrawn, having dissolved its newly organized training school, in favor of employing graduates only. Four schools formerly accredited for the two years' course given, have lengthened the course to three years and have applied for full credit.

When the work of inspection took definite form, efforts and thought were concentrated upon down-State schools and smaller schools in Chicago, for it soon became an assured fact that the board could render much and appreciated service to those, which seemed to be struggling against odds in establishing and maintaining standards and to the

schools just becoming organized. The entire State outside of Chicago, except the extreme northeast portion, and about one-third of Chicago, were covered by inspection prior to September 30, 1914. The new applicants, excepting the most recent, have been inspected. The secretary, who has also acted as inspector of training schools, has so planned this phase of the work that all schools previously accredited and all new applicants pending accrediting, will have been inspected by December 31, 1914.

Following is a statement of the inspection and accrediting of schools for nurses from September 30, 1913, to September 30, 1914:

Inspection—

Formerly accredited	38	
Formerly deferred	2	
New applicants	15	
Extra visits new applicants	5	
Total inspections		60
Schools to be visited from September 30, 1914, to December 30, 1914.		
New applicants	6	
Formerly accredited	26	
		32
		92

Accrediting—

Accredited schools for nurses, September 30, 1913	64
Deferred schools for nurses replaced	2
New applicants accredited	4
Accredited schools for nurses, September 30, 1914	70

In acting upon data collected by inspection, the board has not rejected, at once, any school not meeting the minimum standard, but has deferred action and offered definite recommendations and suggestions, that the school may be fully advised of deficiencies and aided in the development of its course. Equal emphasis is placed upon theoretical instruction and practical experience.

Theoretical Instruction.—The following suggested outline of a course of theoretical instruction is considered a minimum and furnishes a basis for a more elaborate course. It is so arranged as to provide a proper division of classes, thus eliminating much of the unnecessary duplication, so common in former days. This course may be easily covered by a program comprising 10 months of each year, without crowding either pupils or instructors. Properly divided, it includes, in the first year, three hours of class work each week during both the preliminary period of three months and the advanced course of seven months, with one lecture in addition, each week for the latter. In the second year there are two hours of class and one lecture each week. In the third year there is one hour of class every second week and one lecture every second week. For the entire school, it aggregates five classes and three lectures each week, with an additional class and lecture every second week. Experience has proved that, as a rule, student nurses derive most benefit from practical demonstrations and study of text with quizzing. Therefore, the lecture work, usually given by physicians, quite frequently specialists, is given supplementary to class work. The class work is usually handled entirely by the graduate nurse directress or instructress.

A Suggested Course of Instruction for Training Schools for Nurses.

PRELIMINARY.

FIRST FOUR WEEKS.

	Hours.	Hours.
1. Requisites of a woman taking up the study of a nurse as a profession. Talk by Superintendent	1

LECTURES.

General Subjects:	
For lectures, papers and discussions	10

Following is a suggested list of topics to be used under this heading and whenever possible should be in charge of some person who is thoroughly conversant with the topic:

Points in Private Duty.
Nurse Directories.
Hospitals and Training School Management.
Visiting Nursing.
Factory, School, Store Inspection.
Nurses' Settlements.
Work of the Committee of One Hundred on Public Health.
National Associations for the Prevention of Tuberculosis.
Alms House Nursing.
Nurses' Associations:
Local Alumnae.
State Associations.
National Alumnae Association.
National League of Nursing Education.
American Hospital Association.
Red Cross.
The Army Nurse Corps.
The Navy Nurse Corps.
Hospital Economics.
State Registration.

LECTURES.

A Suggested Outline of Drugs to be Studied in the Training Schools for Nurses in Illinois.

Therapeutic agents derived from the vegetable kingdom are prepared from the roots, wood, stems, bark, leaves, juice, oil, flowers and fruit, which includes the seed and berries.

Therapeutic agents derived from the animal kingdom are prepared from ferments, such as trypsin, diastase (pancreatin), emulsifying ferments, milk-curdling ferments; Spanish fly; Gizzard of fowl; Gland extracts; Leeches; Lymph; Mucous Membrane of stomach; Ox-gall.

Inorganic agencies used as therapeutic agents include the following: Baths, general and local; Charcoal, animal and mineral; Climate; Cold; Electricity; Elements; Exercise, active and passive; Food; Heat, dry and moist; Rest, relaxation and sleep; Surgery; Water.

Acids:	Ether.
Acetic.	Ethyl Chloride.
Benzoic.	Nitrous Oxide.
Boric.	Local:
Carbolic, including Salol.	Cocain.
Citric.	Orthoform.
Gallic.	Menthol.
Mineral Acid Group:	Carbolic.
Hydrochloric.	Iodoform.
Nitric.	Ice.
Phosphoric.	Oils:
Sulphuric.	Carron.
Oxalic.	Castor.
Salicylic and its compounds, including Aspirin.	Cod-Liver.
Tannic.	Croton.
Analgesic Coal Tar Preparations:	Lard.
Acetanilid.	Linseed.
Antipyrin.	Olive.
Phenacetin.	Peppermint.
Anaesthetics:	Turpentine.
General:	Wintergreen.
Chloroform.	

The Elements from Which Salts and Other Preparations are Made.

Arsenic.	Lead.	Cascara Sagrada.	Opium and its derivatives.
Bismuth.	Magnesium.	Cinchona.	Quassia.
Calcium.	Mercury.	Digitalis.	Scoparius with its alkaloid Spartein.
Chlorin.	Potassium.	Elatarium.	Senna.
Cerium.	Silver.	Ergot.	Glycyrrhiza.
Iodin, Iodides, Iodoform.	Sodium.	Gelsemium.	
Iron.	Sulphur.	Ginger.	
Copper.	Zinc.		
Preparations From Plants:			
Aconite.	Hydrastis.		
Alcohol.	Hyoscyamus with its alkaloid Hyoscin.		
Asafoetida.	Ipecac.		
Balsam of Peru.	Jaborandi with its alkaloid Pilocarpin.		
Belladonna with its alkaloid Atropin.	Larkspur.		
Buchu.	Mustard.		
Caffeine.	Nux vomica with its alkaloid Strychnin.		
Camphor.			
Cannabis Indica.			
Capsicum.			
		Unclassified:	
		Alum.	Collodion.
		Ammonia.	Formaldehyd.
		Amyl Nitrite.	Glycerine.
		Antitoxine.	Hamamelis.
		Apomorphine.	Peroxide Hydrogen.
		Cantharides.	Sulphonal.
		Charcoal.	Tartar Emetic.
		Chloral Hydrate.	Trional.
		Cocain.	Urotropin.

In affiliation of schools for nurses with universities and other schools of higher education, Illinois has some splendid examples. There are four schools in Chicago and vicinity that are affiliated with the Northwestern University, and in three of these the course of study is supervised by the dean of the Medical School, cooperating with the superintendent of nurses. Nurses graduating receive diplomas from the university with the degree of graduate nurse and they graduate with the other university students. Down-State, one school is affiliated with Wesleyan University at Bloomington, one with Lombard College at Galesburg, and another with the University of Illinois at Urbana. These three affiliations are not so extensive, that is, nurses do not receive a diploma

of the college or university, and the affiliation is for the subject of dietetics only. Three other down-State schools are contemplating affiliation with the State normals, located at Charleston, Macomb and Carbondale. A large number of the Chicago schools affiliate with the Lewis Institute for Dietetics.

Uniformity of text books is a commendable feature of the schools for nurses in Illinois.

Practical experience.—Although the board has not yet submitted a guide for the proper division of practical work, it hopes to publish this very soon. Every school should give to its nurses before sending them out without supervision, a definite term of experience in surgical, medical, operating room, diet kitchen, obstetrical, children, supervising, special duty nursing, etc., and this should be given in proper proportions. The laboratory for this phase of nurses' training is the hospital. Schools lacking certain phases are urged to affiliate with some accredited school for nurses, that can provide this, and the board assists in bringing this affiliation about. Children's nursing, and occasionally obstetrical, are the subjects most frequently found inadequate. There are at least five schools in Chicago prepared and willing to furnish a two to four months' affiliated course. Also, for schools in the extreme southern part of the State, some of the best St. Louis schools are accessible. The board has also found it necessary to urge many schools to give greater prominence, in the course of training, to actual routine preparation of food and supervision of diets.

Training School Records.—The necessity of keeping both daily and permanent training school records is emphasized, and instruction in simple methods of keeping these is given by the inspector where needed. These should include a record of the preliminary qualifications of each student, the number of hours of class and lecture work, subjects, grades, names of instructors, length of time spent in each department of practical experience, adaptability, date of completion of course, etc.

Nurses' Homes.—There is a noticeable and commendable effort being made, which is almost general in character, by way of provision of up-to-date and comfortable class room equipment, wholesome recreation and pleasant homes for the nurses. There have been many modern homes built especially for the student nurses during the last year. School authorities realize that these items are largely conducive to good service.

Supply of Nurses v. Demand.—Although there has been a great increase in hospital capacity, reports from superintendents of schools for nurses show that there is now in nearly every quarter, the proper number of desirable and well qualified applicants to supply the demand for larger schools for nurses. It has been particularly noticeable during the past year that very many schools have waiting lists and that the qualifications of candidates are much higher than formerly.

RECORDS, DATA, ETC.

The board has been greatly aided in its service to the State by the excellent condition of records and extensive collection of data on file—the work of the former board. Many additional forms, blanks and circular letters have been printed to lessen the pressing need for additional clerical and stenographic assistance. A large register, indexed

alphabetically, presumably adequate for the names of nurses registering in a period of 20 years, has been opened. The names and data of all nurses registered during the five years under the former statute are being transcribed. Another ledger, loose-leaf in form, has been established, giving the classification of all registered nurses, according to the school of graduation.

The secretary is at present at work obtaining from every county in the State up-to-date data on hospitals and training schools, and in constructing a large map. The map will show the exact location of every hospital without training school, every hospital with a training school, every accredited school, every non-accredited school, and every school pending accrediting.

FINANCES.

The cash accounts, records and expenditures for the year ended September 30, 1914, were audited by the United States Audit Company under the direction of the Hon. James J. Brady, State Auditor of Public Accounts. Following is a copy of the report of the Audit Company:

"Hon. JAMES J. BRADY,

Auditor of Public Accounts, Springfield, Ill.

"DEAR SIR: As instructed, I have audited the cash receipts and records of expenditures from appropriations of the Illinois State Board of Nurse Examiners for the year ended September 30, 1914.

"I verified the cash receipts by checking the entries in the cash book with stubs of receipt books, and I also proved the footings of this book.

"I vouched the disbursements made from appropriations by reference to duplicate vouchers. Duplicate bills from creditors were not in all cases attached to duplicate voucher. I would suggest that this matter receive proper attention.

"Vouchers for salaries should state the period of time. I have found several salary vouchers itemized 'for services.' This applies particularly to janitors.

"Duplicate vouchers for travelling expenses should be supported by a detailed list, certified to by the proper party.

"The system of book-keeping in this department is simple and efficient, and I have found the records in good condition.

"I submit various statements, as indexed, which contain full detail of the cash receipts and expenditures from appropriations covering the period under review.

"Yours very truly,

(Signed)

"HENRY L. HERTZ,

"President, United States Audit Co."

"Supervised by:

(Signed)

"WHITNEY B. FLERSHEM,

"Certified Public Accountant."

The recommendations in the above report have received attention. Beginning January 1, 1914, all duplicate vouchers have been supported by duplicate bills. Beginning November 1, 1914, duplicate vouchers for traveling expenses have been supported by duplicate detailed lists. Beginning October 1, 1914, vouchers for salaries state the period of time.

An appropriation ledger and journal and a voucher journal have been opened by the treasurer, beginning with the advent of the present board.

Through the courtesy of the Secretary of State and the Cook County officials, examinations are held in the Senate Chamber, Springfield, and the County Building, Chicago, thus avoiding payment of rent for examination rooms.

The removal of the board's headquarters from the Unity Building, Chicago, to the Capitol Building, Springfield, eliminates the expense of \$324 per year for rent, and adds but \$54.00 per year for janitor service.

In order to economize on per diem, the board members correct papers during examinations whenever the classes are small enough to permit. Otherwise, one day's per diem is granted for each 200 papers corrected.

RECEIPTS.

The receipts for the year aggregated \$7,936.01. Refunds of application fees amounted to \$190. The total amount paid into the State treasury was \$7,746.01. The department appropriation for expenses was \$5,130 for the year. The sum, therefore, paid into the State treasury was \$2,616.01 in excess of the appropriation. This department has always more than paid its own way.

DISBURSEMENTS.

The disbursements from the 1913 appropriation for the expenses of the board aggregated \$5,484.68. The following is a detailed statement of the disbursements:

Salaries—

Anna L. Tittman, secretary.....	\$1,398 00

 Total rent and expense \$1,654 07 |

Grand total \$5,484 68

The free available balance on September 30, 1913, was \$4,373.12, showing that vouchers to the amount of \$756.88, which were presented to the department and institution auditor on September 22 and September 29, 1913, were paid out of the 1913 appropriation. The amount of the 1912 appropriation which reverted into the State treasury September 30, 1913, was greater than the amount necessary to cover this expense.

On account of the fact that the business of the board has increased sixfold over the previous year, as shown by receipts, and therefore the necessity for more clerical and stenographic assistance, as well as office equipment, postage, etc., an appropriation estimate of \$6,550 for 1915 and \$6,450 for 1916, has been submitted to the Legislative Reference Bureau. We are asking for an increase of \$1,420 for 1915 and \$1,320 for 1916 on the basis of efficiency alone.

REGISTRATION OF NURSES—REVISION.

The following is an Act entitled, "An Act to provide for the registration of nurses and to repeal a certain Act therein named." Approved June 30, 1913, in force July 1, 1913, under which the Board of Nurse Examiners operates:

- | | |

Repeal of Act of May 2, 1907—board to succeed to obligations, funds and business of State Board of Examiners of Registered Nurses.</p> |
|---|--|

SECTION 1. ILLINOIS STATE BOARD OF NURSE EXAMINERS—QUALIFICATIONS—TERM OF OFFICE—VACANCY ON BOARD—OATH OF OFFICE.] *Be it enacted by the People of the State of Illinois, represented in the General Assembly:* That a board of examiners to consist of five (5) registered nurses to be known as the Illinois State Board of Nurse Examiners is hereby created whose duty it shall be to carry out the provisions of this act as hereinafter specified. The members of the said board shall within thirty days after this act shall be in force and effect be appointed by the Governor, by and with the advice and consent of the Senate and at the time of their appointment they must be actual residents of the State of Illinois. They shall be selected from persons engaged in active work appertaining to nursing of the sick, who shall have been graduated for at least a period of five (5) years from a school for nurses in good standing and who, during their course of training, shall have served for two years in a general hospital, and who shall have been registered under the provisions of either this act or the act herein repealed. Three members of the board shall be selected from nurses who have had at least two (2) years' experience in educational work among nurses. The term for which the members of said board shall hold office shall be three (3) years and until their successors are duly appointed: *Provided, however,* that the terms of the several members composing the first board named under this act, as designated by the Governor, shall expire as follows: One thereof on December 31, 1914, two thereof on December 31, 1915, and two thereof on December 31, 1916. In case of a vacancy occurring on said board, such vacancy shall be filled by the Governor as herein provided, within thirty days after being notified of any such vacancy, and the member so appointed by the Governor to fill a vacancy shall serve for the unexpired portion of the term so vacated. When the Senate is not in

session, the Governor may make appointments to fill vacancies, but all such appointments so made, when the Senate is not in session, shall be subject to confirmation by the Senate at its next session, before becoming permanent. Each member before entering upon the duties of the office shall take the oath prescribed by the Constitution of this State for State officers. Said oath shall be filed in the office of the Secretary of State.

SEC. 2. OFFICERS—DUTIES—COURSE OF INSTRUCTION—INSPECTION OF SCHOOLS—SEAL—REGISTER OF NURSES—PROSECUTIONS—EXPENSES—COMPENSATION.] The members of the board shall, as soon as organized, and annually thereafter, elect from their number a president, secretary and treasurer. The secretary may also serve as treasurer. The board shall, adopt rules not inconsistent with the law, to govern its proceedings; the board may also outline and establish a course of instruction to be followed by accredited schools for nurses, as hereinafter provided, and a system of inspection of such accredited schools for nurses; and the board may amend or repeal such rules in its discretion. The board shall adopt a seal, and the secretary shall have the care and custody thereof. The secretary shall keep a record of all proceedings of the board, including a register of the names and addresses of all nurses duly registered under this act, which register shall be open at all reasonable times to public scrutiny at the office of the board, the address of which office shall at all times be kept on file at the office of the Secretary of State. The board shall cause the prosecution of all persons violating any of the provisions of this act, and to the provisions of any law regulating the expenditures of the board, may incur necessary expenses in that behalf. The secretary of the board shall receive a salary to be fixed by the board not in excess of the amount now or hereafter authorized by law; each member of the board shall receive compensation at the rate of ten dollars (\$10.00) per day for each day, or a proportionate part thereof for a fraction of a working day of eight hours, during which said member is actually engaged in attendance upon the meetings of the board, or is otherwise engaged in the discharge of duty as a member thereof and in going to, going and coming from the place of meeting, or the discharge of such duty. All legitimate and necessary expenses incurred in attending such meetings and all other necessary and legitimate expenses of said board shall be defrayed by the board, subject, however, to the provisions of any law now or hereafter regulating such expenditures.

SEC. 3. QUORUM—RULES FOR EXAMINATION—COURSE OF INSTRUCTION—INSPECTION OF SCHOOLS FOR NURSES—LIST OF ACCREDITED SCHOOLS FOR NURSES—CERTIFICATE AND PUBLICATION OF MODIFICATION OF RULES.] Three (3) members of the board shall constitute a quorum. Special meetings of the board shall be called by the secretary upon written request of any two (2) members. The board shall, from time to time, adopt rules governing the examination of applicants for registration not inconsistent with the provisions of the law, and shall adopt rules providing for and establishing a uniform and reasonable standard of maintenance, instruction and training to be observed by all schools for nurses which are on, or whose application is pending to be placed on, the list of accredited schools for nurses hereinafter provided for, and also for the inspection by said board of such schools for nurses. By reference to the compliance or non-compliance by schools for nurses with such rules, and the general standard of efficiency or inefficiency of management and instruction maintained by the same, the said board shall, by conducting inspections in accordance with its rules, determine the eligibility of, and designate the schools for nurses, to be placed on or to be withdrawn from, a list which shall be known as the list of accredited schools for nurses, which list shall at all times be kept on file in the office of the secretary of said board, where it shall be open to the scrutiny of the public at all reasonable hours, and a copy thereof shall be kept on file at the office of the Secretary of State. Said board may from time to time, modify, amend and repeal said rules, providing no modification of the rules governing examinations of candidates for registration shall be made and become effective during the six weeks next preceding the date set for holding any examination herein provided for. The board shall, immediately upon the election of an officer, file with the Secretary of State a certificate thereof, giving the name and address of said officer, and immediately upon

the adoption, amendment or repeal of a rule, the board shall file with the Secretary of State, a certificate thereof setting forth a copy of the rule as adopted, amended or repealed, and shall also cause a copy of such certificate to be published in the earliest issue practicable of at least one (1) journal devoted to the interests of professional nursing, and mail a copy of said certificate to every accredited school for nurses in Illinois.

SEC. 4. MEETINGS OF BOARD—NOTICE IN PUBLIC PRESS—EXAMINATION OF APPLICANTS—ISSUANCE OF CERTIFICATES—REGISTRATION IN COUNTY CLERK'S OFFICE—REVOCATION OF CERTIFICATE FOR FAILURE TO REGISTER.] It shall be the duty of the board to meet for the purpose of holding examinations not less frequently than twice a year, at times and places to be determined by said board. Notices stating the time and place for the holding of such meetings shall be published in at least one newspaper of general circulation in each of the cities of Chicago and Springfield, and also in at least one (1) journal devoted to the interests of professional nursing, at least thirty days, and not more than sixty days, before the date set for holding the meeting; such written notice of said examination shall also be sent by mail to every person whose application for examination has been approved and is on file, and also to every accredited school for nurses in Illinois, at least thirty (30) days prior to the meeting. At such meetings it shall be the duty of the board to examine all applicants for registration who present themselves in accordance with the terms of this act, and shall issue a certificate for registration to each applicant who passes the prescribed examination to the satisfaction of the board. Each person to whom such certificate shall be issued, or any renewal thereof as hereinafter provided, shall, within ninety (90) days thereafter cause the same to be presented at the office of the county clerk of the county in which such person resided at the time of filing the application and cause said certificate or any renewal thereof to be registered. The county clerk shall charge twenty-five (25) cents for registering such certificate. Failure, or refusal on the part of any person obtaining a certificate for registration as a nurse, or any renewal thereof, to register the same with the county clerk of the county in which said person resided at the time of application, within ninety (90) days from issue of the same, shall work revocation of said certificate: *Provided, however*, that a certificate revoked for failure or refusal of its holder to register the same may be restored upon application to the board and the payment of a fee of two dollars for the issuance of a new certificate. Each person so registered as a nurse shall be prepared, when requested in connection with work as a nurse, to exhibit such certificate of registration or a certificate copy thereof.

SEC. 5. CERTIFICATES.] All certificates issued to nurses by the board shall contain the name and address of the person to whom it is granted, the date of its issuance, shall bear the seal of the board, shall be signed by all of the members, shall be attested by the president and secretary of the board, and shall confer authority upon the person to whom it is issued to practice as a registered nurse in accordance with the provisions of this act.

SEC. 6. COUNTY CLERK TO KEEP REGISTRATION BOOK.] Every county clerk shall keep in a book provided for the purpose, a complete list of all the certificates registered by him under the provisions of this act, together with the date of the issuance and registration of such certificates, and within sixty days after this act becomes effective, shall prepare in duplicate, accompanied by his official certificate that it is complete, a list of names and addresses as the same appear of record in his office, with the date of registration, of all nurses registered in his county under any previous act, prior to July 1, 1913, and annually thereafter, before the first day of March, shall prepare in duplicate in like manner, a list of names registered under this act during the preceding calendar year, and forward said lists in duplicate to the Secretary of State, who shall keep one copy thereof on file in his office and, after certifying the other to be a true copy of a part of the records of his office, shall forward the same to the secretary of the Illinois State Board of Nurse Examiners, to be kept on file in the office of said board.

SEC. 7. QUALIFICATIONS OF APPLICANTS FOR REGISTRATION—WRITTEN APPLICATION—FEE—EXAMINATIONS—REGISTRATION OF CERTIFICATES OF OTHER STATES.] No person, unless previously registered or licensed to act as a registered nurse in this State at the time this act shall become operative, shall be

allowed to act as a registered nurse without first applying for and obtaining a certificate for such purpose from the Illinois State Board of Nurse Examiners. Application shall be made to said board in writing and shall in every instance be accompanied by the examination fee of \$10.00, together with satisfactory proof that the applicant is residing in the State of Illinois, is of good moral character, is at least twenty-two (22) years of age at the time of making the application, is a graduate of and has a diploma from an accredited school for nurses connected with a general hospital requiring a systematic course of at least three (3) years' training, and possesses such other qualifications as may be prescribed from time to time by the rules of said board: *Provided, however*, an application may be made by one who under the rules of an accredited school for nurses will be entitled to receive a diploma within three months following the date of filing said application, but no certificate shall be issued to such applicant until he or she has received such diploma, and has satisfactorily passed the prescribed examinations. When such application and the accompanying proof are found satisfactory, the board shall notify the applicant to appear before it for examination at a time and place to be fixed by the board. Examination may be made orally and in writing, and shall be of a character to test the qualifications of the applicant to serve as a registered nurse. All examinations provided for in this act shall be conducted by the board, which shall provide for a fair and wholly impartial method. After any applicant shall have paid a fee of \$10.00 on the filing of an application for examination, any subsequent application of the same person shall be taken without the payment of a fee: *Provided, however*, the board upon written application and upon the payment of \$10.00 as a registration fee, may issue a certificate without examination of the applicant who shall have been registered as a registered nurse under the law of another state having requirements which in the opinion of a majority of the members of said board, subject to the approval of the Attorney General, are of equal or higher standard than those of the State of Illinois for registration of nurses.

SEC. 8. WHEN SPECIAL COURSE SUFFICIENT FOR REGISTRATION.] Applicants shall also be eligible for examination for registration who at the time of application shall have graduated and received a diploma from a school for nurses connected with any hospital of good standing requiring a systematic course of at least two (2) years' training and who being of the age herein prescribed or over and of good moral character, shall have either filed application for examination within six (6) months next following the date upon which this act becomes in force and effect, or, at the time of application, shall have obtained in any hospital of good standing one (1) year's additional training in subjects not adequately taught in the school for nurses from which they graduated, and shall satisfactorily pass an examination to determine their fitness and ability to give efficient care to the sick.

SEC. 9. UNLAWFUL TO PRACTICE AS REGISTERED NURSE WITHOUT CERTIFICATE.] It shall be unlawful hereafter for any person to practice or attempt to practice in this State as a registered nurse without a certificate from the board. Any person who has received such a certificate shall be styled and known as a registered nurse, and shall be entitled to append the letters "R. N." to his or her name. No person shall assume or use, or knowingly allow or permit any other person to use, such abbreviation "R. N." or any other words, letters or figures after his own name or after the name of any other person for the purpose of indicating that such person is a registered nurse, unless the person after whose name the said letters, abbreviations or words are so used, is in fact a registered nurse and entitled under the provisions of this law to act as such.

SEC. 10. PENALTY.] Any person who shall practice, or in any way represent himself or herself, or any other person, as a registered nurse in this State without such person holding a certificate duly registered and recorded as provided by this act, or who shall violate any of the provisions of this act, shall be subject to prosecution in any court of competent jurisdiction upon complaint, information or indictment, and shall, upon conviction, be fined for each offense in any sum not more than \$100.00 for the first offense nor more than \$200.00 for each subsequent offense.

Any person who shall wilfully make any false representations to the board in applying for a certificate, shall be guilty of a misdemeanor, and upon conviction shall be fined in a sum not more than \$200.00.

SEC. 11. REVOCATION OF CERTIFICATE—RENEWAL.] Registered nurses' certificates issued in accordance with the provisions of this Act shall remain in full force until revoked for cause, as hereinafter provided. Any certificate so granted may be revoked by unanimous vote of the Illinois State Board of Nurse Examiners for gross incompetency or recklessness in the discharge of duty as a registered nurse, or for dishonest practices on the part of the holder thereof; but before any certificate shall be revoked such holder shall be entitled to at least thirty (30) days notice in writing of the charge against him or her, together with notice of the time and place of the meeting of the board for the hearing and determining of such charge, and shall be entitled to a full, fair and impartial hearing of such charges under rules to be adopted from time to time by the said board. On the cancellation of such certificate it shall be the duty of the secretary of the board to give notice of such cancellation to the county clerk of the county in which the certificate has been registered, whereupon said county clerk shall note such cancellation on the registration book in his office. Upon satisfactory evidence of reasons for the reinstatement of a registered nurse whose certificate has been thus revoked, the board may, six months after the date of such revocation, or any time thereafter, issue a new certificate to the said nurse without examination, upon payment to the board of a fee of \$5.00.

SEC. 12. APPEAL TO CIRCUIT COURT FROM CERTAIN RULINGS OF BOARD.] Any person whose certificate as a registered nurse shall be revoked, or to whom a renewal of such certificate previously issued shall be denied, or any training school for nurses whose application to be placed upon the list of accredited training schools for nurses shall be denied, or whose name is stricken from such list, by ruling of the board, without the consent of such training school, may, within thirty (30) days after such action of the board, file in the Circuit Court of the county in which such nurse resides, or in which such training school for nurses is located, a petition against the Illinois State Board of Nurse Examiners, officially, as defendant, alleging therein, under oath, and in brief detail the petitioner's qualifications for and rights to the privileges denied such petitioner by the ruling of the board, and praying for a reversal of such ruling, upon entry of appearance by, or service of summons upon said board as hereinafter provided for, the board shall file a nanswer as in actions in chancery, but not under oath, in which shall allege by way of defense, the grounds previously held by it as responsible for its adverse ruling against such nurse or training school. All allegations of the answer shall be deemed to stand denied without further pleading, and upon application of either party thereto the cause shall be advanced and heard without delay.

Either party to such proceeding shall have the right to a trial by jury, provided a demand therefor be made in writing in the first instance upon the filing of the petition or answer, but either party may there afterwards waive such demand for a jury trial. The burden shall rest upon the petitioner to disprove the grounds assigned and specified for the official action of the board complained of. The court's decision shall be final, but if adverse to the petitioner, it shall not bar a new application to the board for a renewal of a revoked certificate for registration under the provisions of this act, nor after the lapse of six (6) months from its rendition in the case of training schools, shall it bar a new application of the petitioner to be placed on the list of accredited schools nor shall a decision of the court in favor of the petitioner prevent the board from thereafter taking similar adverse action against the petitioner for sufficient cause which may thereafter accrue or be discovered.

For the purpose of affording the right of such appeals, in any actions instituted hereunder, service of process may be had on said board by serving a summons upon a president, secretary or any member of said board, in the county in which the office of the board is located or in any county of the State where any one of said persons may be found, for which purpose of service process may issue directed to any county in the State as in the

case of summons issued against parties defendant residing in foreign counties.

SEC. 13. EXEMPTION FROM JURY SERVICE.] All registered nurses in this State shall be exempt from service as jurors in any of the courts in this State.

SEC. 14. TO WHOM DOES NOT APPLY.] This act shall not affect or apply to the gratuitous nursing of the sick by friends or members of the family, nor to any person nursing the sick for hire, who does not in any way assume or pretend to be a registered nurse, and this act, shall not interfere in any manner with members of religious communities who have charge of hospitals, or who are engaged in nursing in hospitals, or take care of the sick in their own homes, provided such members do not in any way assume to be registered nurses.

SEC. 15. REPEAL OF ACT OF MAY 2, 1907—BOARD TO SUCCEED TO OBLIGATIONS, FUNDS AND BUSINESS OF STATE BOARD OF EXAMINERS OF REGISTERED NURSES.] "An act relating to nurses and providing for their registration," approved May 2, 1907, in force July 1, 1907, is hereby repealed: *Provided, however,* that all applications filed with the State Board of Examiners of Registered Nurses under the provisions of said act shall be recognized by the Illinois State Board of Nurse Examiners created hereunder, and shall be treated as though filed under the provisions of this act; also that said new board created hereunder shall, upon organizing, succeed to and be chargeable with any outstanding financial obligations or indebtedness of said Board of Examiners of Registered Nurses created under said act hereby repealed, and, in like manner, shall succeed to, collect, take over, receive and account for, all moneys, credits or appropriations due or hereafter to come due, or which may be in the hands of said old board at the time of the organization of the new board hereby created, and shall receive, account for and handle any moneys so collected or taken over, as well as all other funds hereafter coming into its hands, in the manner now or hereafter provided for by law; and shall also take over the records and equipment of the State Board of Examiners of Registered Nurses and its unfinished business.

APPROVED June 30, 1913.
